

## Linphone Desktop Setup Guide

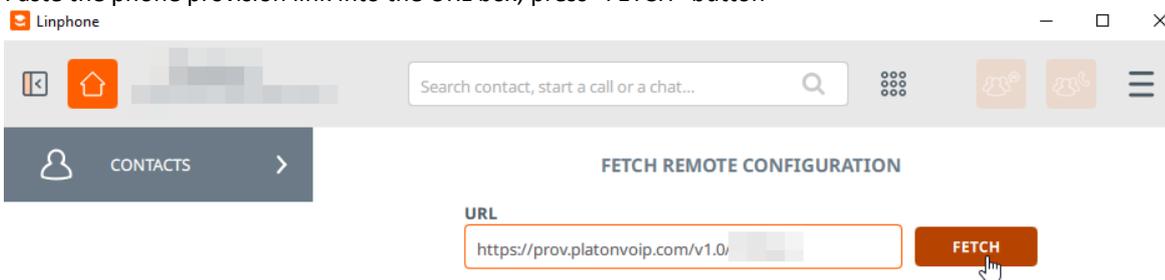

Before the following steps to be proceeded, please check with PLATON support team or your administrator to obtain the phone provision URL.

The URL format should be like this: <https://prov.platonvoip.com/v1.0/xxxx>

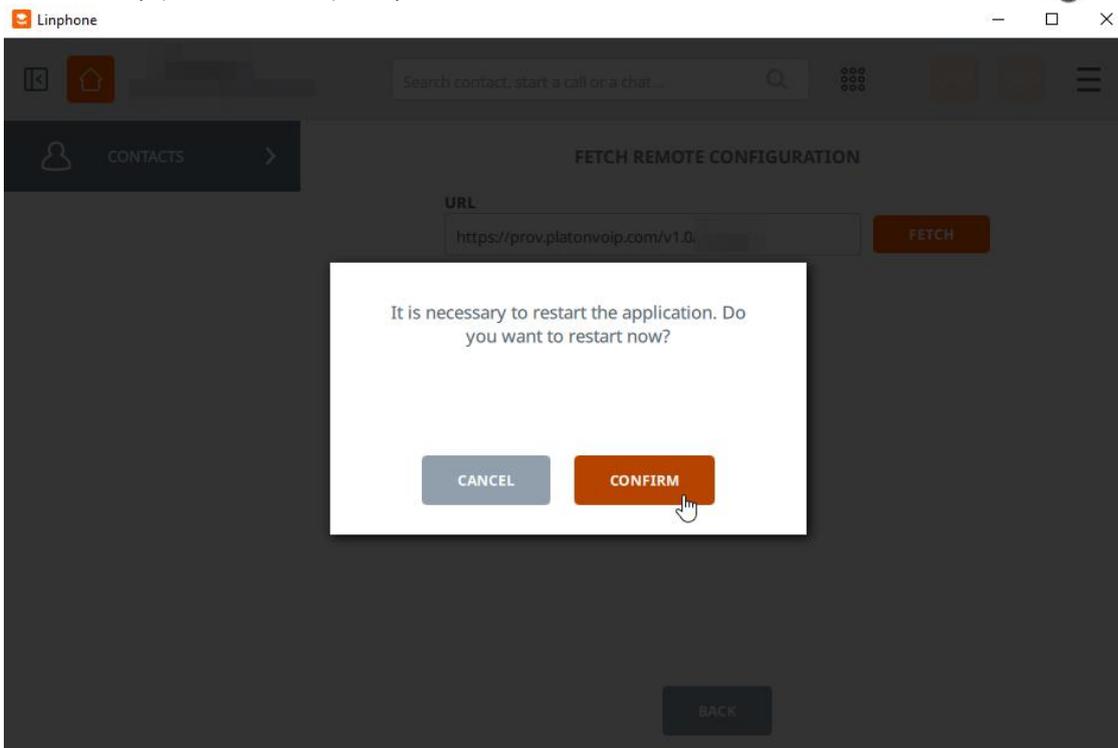

1. For Windows, please download from: <https://download.linphone.org/releases/windows/app/Linphone-5.0.18-win64.exe>  
For macOS, please download from: <https://download.linphone.org/releases/macosx/app/Linphone-5.0.17-mac.dmg>
2. After download, run the setup wizard.
3. Launch Linphone software, check the box “I accept Belledonne Communication’s terms of use and privacy policy”, and click on the “FETCH REMOTE CONFIGURATION” button

4. Paste the phone provision link into the URL box, press “FETCH” button

5. Press “CONFIRM” button when it prompt for restart application

- 6. The softphone is ready to use after application restart, please refer to our Linphone Desktop User Guide for usage instruction.
